

Environmental Stewardship, Social Responsibility & Governance (ESG)

At Atlantic Fenders & Support Services, we are committed to responsible and sustainable marine operations.

Our ESG approach is woven into every aspect of our business from reducing environmental impact to prioritizing people and upholding the highest standards of governance.

- **Environmental Stewardship:** We operate with a deep respect for the marine ecosystem, continuously improving our waste management, reducing emissions, and promoting eco-friendly practices across our services.
- **Social Responsibility:** We prioritize the safety, well-being, and development of our people while supporting the communities where we operate. Training, inclusion, and stakeholder engagement are at the heart of our values.
- **Governance:** With a foundation of integrity and transparency, we adhere to global compliance standards, ethical business practices, and robust risk management frameworks.

Through ESG, we aim to deliver lasting value to our clients, our people, and the environment
